

ANTI-DUMPING NOTICE NO. 2017/164

Zinc Coated (Galvanised) Steel

Exported to Australia from the People's Republic of China, the Republic of Korea and Taiwan

Initiation of an exemption inquiry EX0056

Customs Tariff (Anti-Dumping) Act 1975

I, Dale Seymour, the Commissioner of the Anti-Dumping Commission, have initiated an exemption inquiry in relation to certain goods the subject of anti-dumping measures applying to zinc coated (galvanised) steel (the goods) exported to Australia from the People's Republic of China (China), the Republic of Korea (Korea) and Taiwan.

The exemption category being sought is under subsections 8(7)(b) and 10(8)(aa) of the *Customs Tariff (Anti-Dumping) Act 1975* (Dumping Duty Act). Under these provisions the Assistant Minister for Industry, Innovation and Science and the Parliamentary Secretary to the Minister for Industry, Innovation and Science (the Parliamentary Secretary)¹ may exempt goods from dumping and countervailing duties where satisfied:

'that a Tariff Concession Order under Part XVA of the *Customs Act 1901* in respect of the goods is in force.'

The Anti-Dumping Measures

Anti-dumping measures, in the form of a dumping duty notice and a countervailing duty notice,² were initially imposed on the goods by public notice on 5 August 2013 by the then Attorney-General following consideration of *International Trade Remedies Branch Report No. 190* (REP 190) and *International Trade Remedies Branch Report No. 193* (REP 193).

Exports of the goods from China, Korea and Taiwan are subject to dumping duty and exports of the goods from China are subject to countervailing duty. A number of exporters are exempt from the duties. Certain goods subject to specified Tariff Concession Orders (TCO) are also exempt from the duties.

¹ On 19 July 2016, the Prime Minister appointed the Parliamentary Secretary to the Minister for Industry, Innovation and Science as the Assistant Minister for Industry, Innovation and Science. For the purposes of this inquiry the Minister is the Parliamentary Secretary to the Minister for Industry, Innovation and Science.

² Anti-Dumping Notice No. 2013/66 refers.

Details of these exemptions can be found in the Dumping Commodity Register on the Commission's website at www.adcommission.gov.au.

The Exemption Goods

The goods the subject of the exemption inquiry are certain galvanised steel ("the exemption goods") meeting the following specific characteristics covered by TCO TC1750287, reported in the Tariff Concessions Gazette³:

SHEETS, flat rolled, non-alloy steel, hot dipped galvanized zinc coated, having ALL of the following:

- (a) yield strength NOT less than 450 MPa;*
- (b) tensile strength NOT less than 480 MPa;*
- (c) total elongation NOT less than 10%;*
- (d) total coating mass on ALL sides NOT less than 275 g/m²;*
- (e) thickness 4.0 mm AND width 1200 mm AND length 2 160 mm.*

For the purposes of this Order, tolerances allowable for specification (e) are as follows:

- (i) thickness +/- 0.2 mm;*
- (ii) width +/- 5 mm;*
- (iii) length +/- 10 mm*

The exemption goods are classified to the tariff subheading 7210.49.00 (statistical code 58) of Schedule 3 to the *Customs Tariff Act 1995*. For these goods the general rate of duty is currently five per cent for goods imported from Korea and Taiwan. There is no general rate of duty for goods imported from China.

The exemption inquiry will examine whether the exemption goods satisfy the conditions of the subsections 8(7)(b) or 10(8)(aa) of the Dumping Duty Act.

The Current Inquiry

An application for an exemption under subsections 8(7)(b) and 10(8)(aa) of the Dumping Duty Act has been made to the Parliamentary Secretary by Bluescope Steel (AIS) Pty Ltd. The applicant asserts that there are no substitutable domestic goods to the goods described in TCO TC1750287.

After making inquiries of the Australian industry producing galvanised steel and other interested parties, I will recommend to the Parliamentary Secretary whether the goods should be exempted from the anti-dumping measures.
