Question	Response
<p>1. What countries do measures apply to?</p>	<p>On 28 October 2015, anti-dumping measures in the form of interim dumping duties (IDD) were continued on aluminium extrusions exported from the People’s Republic of China (China), except for exports by Tai Ao Aluminium Tai Shan Co Ltd and Guangdong Zhongya Aluminium Company Limited.</p> <p>Anti-dumping measures in the form of interim countervailing duties (ICD) were also continued on aluminium extrusions exported from China, except for exports by Tai Ao Aluminium Tai Shan Co Ltd.</p> <p>For more information on the continuation of measures, please refer to Final Report <a href="#">REP 287</a> and Anti-dumping Notice <a href="#">2015/125</a>.</p> <p>On 23 March 2017, provisional anti-dumping measures in the form of dumping securities (DSA) were varied on aluminium extrusions exported from Malaysia and Vietnam following the publication of a second Preliminary Affirmative Determination (PAD). For more information please refer to Anti-Dumping Notice <a href="#">2017/37</a>.</p>
<p>2. What types of aluminium extrusions are subject to anti-dumping measures and securities?</p>	<p><b>The ‘description of goods’ subject to measures/securities are:</b></p> <ul style="list-style-type: none"> <li>• are produced by an extrusion process;</li> <li>• are of alloys having metallic elements falling within the alloy designations published by The Aluminium Association commencing with 1, 2, 3, 5, 6 or 7 (or proprietary or other certifying body equivalents);</li> </ul> <p><b>Finish Types</b></p> <ul style="list-style-type: none"> <li>• as extruded (mill);</li> <li>• mechanical;</li> <li>• anodized; or</li> <li>• painted or otherwise coated, whether or not worked;</li> </ul> <p><b>Sizes</b></p> <ul style="list-style-type: none"> <li>• have a wall thickness or diameter greater than 0.5 mm;</li> <li>• have a maximum weight per metre of 27 kilograms; and</li> <li>• have a profile or cross-section fitting within a circle having a diameter of 421 mm.</li> </ul> <p>For more information about the description of the goods subject to measures, please refer to the Final Report <a href="#">REP 287</a>.</p>

2. What types of aluminium extrusions are subject to anti-dumping measures and securities? (continued)

The table below provides guidance to importers and brokers to assist in the categorisation of aluminium extrusions into the types covered by interim duties (GUC), and those not covered (Non GUC). In most cases, extrusions classified to headings 7604 or 7608 would be subject to IDD and/or ICD. Importers should use the table to categorise their goods and decide whether dumping and countervailing duties apply.

< Goods Under Consideration (GUC) >				< Non GUC >		
1	2	3	4	5	6	7
Aluminium extrusions	Aluminium extrusions with minor working	Aluminium extrusions that are parts intended for use in intermediate or finished products	Aluminium extrusions that are themselves finished products	Unassembled products containing aluminium extrusions	Intermediate or partly assembled products containing aluminium extrusions	Fully assembled finished products containing aluminium extrusions
Examples						
Mill finish, painted, powder coated, anodised, or otherwise coated aluminium extrusions	Precision cut, machined, punched or drilled aluminium extrusions	Aluminium extrusions designed for use in a door or window	Carpet liner, fence posts, heat sinks	Kits that, at time of import, comprise all necessary parts to assemble finished goods. For example, shower frame kits, window frame kits, unassembled unitised curtain walls	Unglazed window or door frames	Windows, doors

**Please Note:**

1. When importing goods into the country importers are required to self-assess whether the imported goods meet the goods description outlined above and whether anti-dumping measures apply.
2. The Anti-Dumping Commission is not in a position to provide advice on whether certain goods meet the description above.
3. The use of exemption types is subject to monitoring by the Anti-Dumping Commission (the Commission) and the Department of Immigration and Border Protection (DIBP).

<p>3. How much IDD/DSA and ICD will an importer have to pay?</p>	<p><b><u>IDD/DSA – all exporters (except Tai Ao Aluminium Tai Shan Co Ltd and Guangdong Zhongya Aluminium Company Limited)</u></b></p> <p>IDD/DSA is in the form of a fixed and variable measure. The total IDD liability is calculated as follows:</p> <ul style="list-style-type: none"> <li>• fixed component of IDD: dumping export price (DXP) or ascertained export price (AEP), whichever is the greatest, multiplied by the applicable IDD ad valorem duty rate; <b>plus</b></li> <li>• variable component of IDD: the amount, if any, by which the DXP is lower than the AEP.</li> </ul> <p><b><u>ICD/CSA – all exporters (except Tai Ao Aluminium Tai Shan Co Ltd)</u></b></p> <p>The ICD/CSA liability is calculated by multiplying the DXP by the ICD ad valorem duty rate.</p>
<p>4. Example of how to calculate the IDD/DSA and ICD liability</p>	<p>The following is an <b>example</b> of how to calculate the IDD/DSA and ICD liability.</p> <ul style="list-style-type: none"> <li>• DXP = AUD \$1,000 (Free-On-Board (FOB), cash)</li> <li>• AEP = AUD \$2,000 (FOB, cash)</li> <li>• IDD ad valorem rate = 10%</li> <li>• ICD ad valorem rate = 15%</li> </ul> <p><b>IDD/DSA liability</b></p> <p><u>Fixed component of IDD/DSA:</u> The higher of the DXP (\$1,000) or AEP (\$2,000) multiplied by the IDD ad valorem rate (10%) <math>\\$2,000 \times 10\% = \\$200</math></p> <p><u>Variable component of IDD/DSA:</u> the amount, if any, by which the DXP (\$1,000) is lower than the AEP (\$2,000) <math>\\$2,000 - \\$1,000 = \\$1,000</math></p> <p><u>Total IDD/DSA liability:</u> <math>\\$1,200 (\\$200 + \\$1,000)</math></p> <p><b>ICD/CSA liability</b> DXP (\$1,000) multiplied by the countervailing duty rate (15%) = \$150</p>

5. What is the dumping export price (DXP) and how do I calculate it?

The DXP refers to the actual export price of the exported goods. The DXP should reflect the total export (invoice) price of the goods being entered, not the unit price of the goods.

**The DXP should be recorded on the relevant Full Import Declaration for the goods in the same terms as the AEP for the goods. Calculating the DXP may involve adjusting the actual export invoice price of the goods to the terms specified for the AEP.**

For example, if the AEP terms are “FOB, cash” and the actual invoice terms of the goods are “CIF, 60 days, packed”, the following adjustments will need to be made in order to calculate the DXP at FOB, cash level.

- step 1 - an adjustment for interest on credit terms will need to be made; and
- step 2 - the overseas freight and insurance components will need to be subtracted from the export invoice price.

Where suitable evidence cannot be proffered by the importer of the interest rate, then 1.0% per month (0.033% per day) should be applied to the actual invoice price credit terms.

An example of adjusting for credit and incoterms is provided below:

- Invoice terms = CIF, 60 days
- Specified terms = FOB, cash
- Export price - invoice amount = \$1,000
- Marine insurance and ocean freight amount = \$100

**Step 1 - adjust for credit terms**

1. 1% per month interest rate should be applied to the invoiced price credit terms (i.e. 30 days = 1%)
2. If the invoiced CIF, 60 days price is \$1,000, then the CIF, cash price = \$980 (\$1,000 less 2%)

**Step 2 - adjust for incoterms**

3. Adjust for freight and insurance to calculate DXP at FOB, cash equivalent
4. CIF, cash price of \$980 minus freight and insurance amount of \$100 = \$880
5. The DXP price = \$880 FOB, cash

For further instructions/examples on how to calculate the DXP, please refer to the [Anti-Dumping Commission website](#).

<p>6. What information is needed to complete an import declaration for goods subject to measures/ securities?</p>	<p>The information required by an importer or Customs broker to complete an import declaration for goods subject to IDD/DSA is:</p> <ul style="list-style-type: none"> <li>• DXP;</li> <li>• Dumping Specification Number (DSN) or exemption type (where appropriate);</li> <li>• Country (this is usually country of origin or export country);</li> <li>• Tariff classification and statistical code;</li> <li>• Exporter / supplier; and</li> <li>• Quantity.</li> </ul> <p>Please see below to determine which DSN applies to the exporter of your goods. Advice on how to complete an import declaration for goods subject to anti-dumping measures is available at <a href="#">Anti-Dumping Commission</a></p>																					
<p>7. Will dumping securities collected on my imports be converted to measures?</p>	<p>Securities taken in will be either cancelled or converted to IDD.</p> <p>The ABF will contact each affected importer/broker and provide relevant cancellation and/or conversion instructions for each consignment subject to security undertakings.</p>																					
<p>8. How do I lodge an entry for goods subject to dumping security?</p>	<p>Goods subject to DSA, must be entered using the DSN shown below.</p> <p>Importers will need to complete and submit a <a href="#">dumping security undertaking</a> form when lodging an entry for goods subject to securities.</p> <p>Importers and Customs brokers should contact the National Temporary Imports and Securities section of the Department of Immigration and Border Protection at <a href="mailto:ntis@border.gov.au">ntis@border.gov.au</a> to lodge the undertaking form and for information relating to securities.</p>

<p>11. How do I find out the confidential rate and ascertained export price for my exporter?</p>	<p>The IDD ad valorem rate and the AEP for each DSN are considered confidential and will not be published.</p> <p>Importers of these goods may be provided with the confidential IDD ad valorem rate and the AEP, however the onus is on the importer to substantiate their commercial relationship with an exporter/supplier of their goods by providing evidence of:</p> <ul style="list-style-type: none"> <li>• A previous trading history with a nominated exporter/supplier of the goods. Evidence of a trading history would take the form of at least commercial invoices, packing list and bills of lading from previous shipments; or</li> <li>• In the absence of a trading history, an offer or a quotation from an exporter/supplier of goods subject to dumping/countervailing measures. 15. What are the duty assessment importation and application period dates?	<p>An importer of goods on which an IDD has been paid, may lodge an application with the Commissioner requesting that the Parliamentary Secretary make an assessment of the final liability of those goods to duty.</p> <p>This usually occurs when an importer considers that the IDD paid in respect of goods exceed the total amount payable (i.e. importers consider they are entitled to a refund of duties). In relation to IDD, an importer may consider that the dumping margin for the goods is now less than it was during the investigation period, or that its exporter is no longer dumping, and as a result it has paid more duty than it should have paid.</p> <p>There are a series of time frames fixed by legislation that govern the duty assessment system (referred to as importation periods). The duty assessment importation periods and application dates for aluminium extrusions from China are as follows:</p> <table border="1" data-bbox="577 1070 1541 1378"> <thead> <tr> <th>Importation Period</th> <th>Application Period</th> </tr> </thead> <tbody> <tr> <td>28 October 2016 - 27 April 2017</td> <td>28 April 2017 – 27 October 2017</td> </tr> <tr> <td>28 April 2017 – 27 October 2017</td> <td>28 October 2017 to 27 April 2018</td> </tr> <tr> <td>28 October 2017 - 27 April 2018</td> <td>28 April 2018 – 27 October 2018</td> </tr> <tr> <td>28 April 2018 – 27 October 2018</td> <td>28 October 2018 - 27 April 2019</td> </tr> <tr> <td>28 October 2018 - 27 April 2019</td> <td>28 April 2019 – 27 October 2019</td> </tr> <tr> <td>28 April 2019 – 27 October 2019</td> <td>28 October 2019 - 27 April 2020</td> </tr> <tr> <td>28 October 2019 - 27 April 2020</td> <td>28 April 2020 – 27 October 2020</td> </tr> <tr> <td>28 April 2020 – 27 October 2020</td> <td>28 October 2020 - 27 April 2021</td> </tr> </tbody> </table> <p>More information about duty assessments is available on the <a href="#">Anti-Dumping Commission website</a>.</p>	Importation Period	Application Period	28 October 2016 - 27 April 2017	28 April 2017 – 27 October 2017	28 April 2017 – 27 October 2017	28 October 2017 to 27 April 2018	28 October 2017 - 27 April 2018	28 April 2018 – 27 October 2018	28 April 2018 – 27 October 2018	28 October 2018 - 27 April 2019	28 October 2018 - 27 April 2019	28 April 2019 – 27 October 2019	28 April 2019 – 27 October 2019	28 October 2019 - 27 April 2020	28 October 2019 - 27 April 2020	28 April 2020 – 27 October 2020	28 April 2020 – 27 October 2020	28 October 2020 - 27 April 2021
