Question	Response
1. What countries do measures apply to?	<p>On 5 August 2013, anti-dumping measures in the form of interim dumping duties (IDD) were imposed on aluminium zinc coated steel exported from the People’s Republic of China (China) and the Republic of Korea (Korea), except for exports by Dongkuk Steel Mill Co Ltd from Korea.</p> <p>Anti-dumping measures in the form of interim countervailing duties (ICD) have also been imposed on aluminium zinc coated steel exported from China, except for exports by:</p> <ul style="list-style-type: none"> <li>• Angang Steel Company Ltd;</li> <li>• Jiangyin Zong Cheng Steel Co;</li> <li>• Union Steel China; and</li> <li>• Yieh Phui Technomaterial Co Ltd.</li> </ul> <p>For more information please refer to the Final Report <a href="#">REP 190</a> and Anti-dumping Notice <a href="#">2013/66</a>.</p> <p>On 12 May 2017, IDD rates were varied following three independent reviews of the anti-dumping measures. For more information please refer to the <a href="#">Final Report</a> and ADN <a href="#">2017/48</a>.</p>
2. What types of aluminium Zinc Coated Steel are subject to anti-dumping measures?	<p><b>The ‘description of goods’ subject to measures are:</b></p> <p>Aluminium zinc coated steel that is:</p> <ul style="list-style-type: none"> <li>• a flat rolled product of iron and non-alloy steel;</li> <li>• plated or coated with aluminium-zinc alloys;</li> <li>• whether or not surface treated including combinations of surface treatments; and</li> <li>• whether or not including resin coating.</li> </ul> <p><b>Sizes</b></p> <ul style="list-style-type: none"> <li>• in widths equal to or greater than 600mm.</li> </ul> <p><b>The following descriptions are <i>excluded</i> from measures, exemption type “GOODS” applies:</b></p> <ul style="list-style-type: none"> <li>• Aluminium zinc coated steel that is painted or pre-painted (including colorbond).</li> <li>• <u>Korea only</u> - Unchromated products of aluminium zinc coated steel.</li> </ul>

<p>2. What types of aluminium Zinc Coated Steel are subject to anti-dumping measures? (continued)</p>	<p><a href="#">Ministerial Exemption Instrument No 3 of 2015</a> effective from 27 October 2014.</p> <ul style="list-style-type: none"> <li>Aluminium Zinc Coated Steel with a width of between 1,188mm and 1,212mm and a thickness of between 1.52mm and 1.68mm.</li> </ul> <p>For more information about the description of the goods subject to measures, please refer to the Final Report <a href="#">REP 190</a>.</p> <p><b>Please Note:</b></p> <ol style="list-style-type: none"> <li>When importing goods into the country importers are required to self-assess whether the imported goods meet the goods description outlined above and whether anti-dumping measures apply.</li> <li>The Anti-Dumping Commission is not in a position to provide advice on whether certain goods meet the description above.</li> <li>The use of exemption types is subject to monitoring by the Anti-Dumping Commission (the Commission) and the Department of Immigration and Border Protection (DIBP).</li> </ol>
<p>3. How much Interim Dumping Duties (IDD/DSA) and Interim Countervailing Duties (ICD/CSA) will an importer have to pay?</p>	<p><b><u>IDD – all exporters (except Dongkuk Steel Mill Co Ltd and Dongbu Steel Co. Ltd)</u></b></p> <p>IDD is in the form of a fixed and variable measure. The total IDD liability is calculated as follows:</p> <ul style="list-style-type: none"> <li>fixed component of IDD: dumping export price (DXP) or ascertained export price (AEP), whichever is the greatest, multiplied by the applicable IDD ad valorem duty rate; <b>plus</b></li> <li>variable component of IDD: the amount, if any, by which the DXP is lower than the AEP.</li> </ul> <p><b><u>IDD – Dongbu Steel Co. Ltd</u></b></p> <p>IDD is in the form of a floor price measure. The total IDD liability is the amount, if any, by which the DXP is lower than the normal value (NV).</p> <p><b><u>ICD – ‘all other exporters’ only</u></b></p> <p>The ICD liability is calculated by multiplying the DXP by the ICD ad valorem duty rate.</p>
<p>4. Example of how to calculate the Interim Dumping Duties (IDD/DSA) and Interim Countervailing Duties (ICD/CSA) liability</p>	<p><b><u>Fixed and variable measures</u></b></p> <p>The following is an <b>example</b> of how to calculate the IDD and ICD liability.</p> <ul style="list-style-type: none"> <li>DXP = AUD \$1,000 (Free-On-Board (FOB), cash)</li> <li>AEP = AUD \$2,000 (FOB, cash)</li> <li>IDD ad valorem rate = 10%</li> <li>ICD ad valorem rate = 15%</li> </ul>

<p>4. Example of how to calculate the IDD and ICD liability (continued)</p>	<p><b>IDD liability</b>  <u>Fixed component of IDD:</u>  The higher of the DXP (\$1,000) or AEP (\$2,000) multiplied by the IDD ad valorem rate (10%)  <math>\\$2,000 \times 10\% = \\$200</math></p> <p><u>Variable component of IDD:</u>  the amount, if any, by which the DXP (\$1,000) is lower than the AEP (\$2,000)  <math>\\$2,000 - \\$1,000 = \\$1,000</math></p> <p><b>Total IDD liability:</b> \$1,200 (\$200 + \$1,000)</p> <p><b>ICD liability:</b> DXP (\$1,000) multiplied by the countervailing duty rate (15%) = \$150</p> <p><b>Floor Price measures</b>  The following is an <b>example</b> of how to calculate the IDD liability of a <u>floor price measure</u>.</p> <ul style="list-style-type: none"> <li>• DXP = AUD \$1,000 (Free-On-Board (FOB), cash)</li> <li>• NV = AUD \$2,000 (FOB, cash)</li> </ul> <p><b>IDD liability</b>  The amount, if any, by which the DXP (\$1,000), is lower than the NV (\$2,000): <math>\\$2,000 - \\$1,000 \text{ (DXP)} = \\$1,000</math></p>
<p>5. What is the dumping export price (DXP) and how do I calculate it?</p>	<p>The DXP refers to the actual export price of the exported goods. The DXP should reflect the total export (invoice) price of the goods being entered, not the unit price of the goods.</p> <p><b>The DXP should be recorded on the relevant Full Import Declaration for the goods in the same terms as the AEP for the goods. Calculating the DXP may involve adjusting the actual export invoice price of the goods to the terms specified for the AEP.</b></p> <p>For example, if the AEP terms are “FOB, cash” and the actual invoice terms of the goods are “CIF, 60 days, packed”, the following adjustments will need to be made in order to calculate the DXP at FOB, cash level.</p> <ul style="list-style-type: none"> <li>• step 1 - an adjustment for interest on credit terms will need to be made; and</li> <li>• step 2 - the overseas freight and insurance components will need to be subtracted from the export invoice price.</li> </ul> <p>Where suitable evidence cannot be proffered by the importer of the interest rate, then 1.0% per month (0.033% per day) should be applied to the actual invoice price credit terms.</p>

<p>5. What is the dumping export price (DXP) and how do I calculate it? (continued)</p>	<p>An example of adjusting for credit and incoterms is provided below:</p> <ul style="list-style-type: none"> <li>• Invoice terms = CIF, 60 days</li> <li>• Specified terms = FOB, cash</li> <li>• Export price - invoice amount = \$1,000</li> <li>• Marine insurance and ocean freight amount = \$100</li> </ul> <p><b>Step 1 - adjust for credit terms</b></p> <ol style="list-style-type: none"> <li>1. 1% per month interest rate should be applied to the invoiced price credit terms (i.e. 30 days = 1%)</li> <li>2. If the invoiced CIF, 60 days price is \$1,000, then the CIF, cash price = \$980 (\$1,000 less 2%)</li> </ol> <p><b>Step 2 - adjust for incoterms</b></p> <ol style="list-style-type: none"> <li>3. Adjust for freight and insurance to calculate DXP at FOB, cash equivalent</li> <li>4. CIF, cash price of \$980 minus freight and insurance amount of \$100 = \$880</li> <li>5. The DXP price = \$880 FOB, cash</li> </ol> <p>For further instructions/examples on how to calculate the DXP, please refer to the <a href="#">Anti-Dumping Commission website</a>.</p>
<p>6. What information is needed to complete an import declaration for goods subject to measures?</p>	<p>The information required by an importer or Customs broker to complete an import declaration for goods subject to IDD/DSA is:</p> <ul style="list-style-type: none"> <li>• DXP;</li> <li>• Dumping Specification Number (DSN) or exemption type (where appropriate);</li> <li>• Country (this is usually country of origin or export country);</li> <li>• Tariff classification and statistical code;</li> <li>• Exporter / supplier; and</li> <li>• Quantity.</li> </ul> <p>Please see below to determine which DSN applies to the exporter of your goods.</p> <p>Further advice on how to complete an import declaration for goods subject to anti-dumping measures is available on the <a href="#">Anti-Dumping Commission website</a></p>

7. What DSN do I use for my imported goods and what are the rates for my exporter?

**Please Note:**

1. IDD and ICD ad valorem duty rates and AEP are considered confidential. Please see below on how importers can request the confidential rates
2. The actual duty liability may be higher than the effective rate of duty published due to the variable component of IDD that may be payable.

<p>8. How do I find out the confidential rate and ascertained export price for my exporter?</p>	<p>The IDD ad valorem rate and the AEP for each DSN are considered confidential and will not be published.</p> <p>Importers of these goods may be provided with the confidential IDD ad valorem rate and the AEP, however the onus is on the importer to substantiate their commercial relationship with an exporter/supplier of their goods by providing evidence of:</p> <ul style="list-style-type: none"> <li>• A previous trading history with a nominated exporter/supplier of the goods. Evidence of a trading history would take the form of at least commercial invoices, packing list and bills of lading from previous shipments. Additional documentation may be requested by the Commission; or</li> <li>• In the absence of a trading history, an offer or a quotation from an exporter/supplier of goods subject to dumping/countervailing measures. The offer or quotation must be on the exporter/supplier's company letterhead – emails will not generally be accepted.</li> </ul>
<p>8. How do I find out the confidential rate and ascertained export price for my exporter? (continued)</p>	<p>Requests and evidence should be sent to <a href="mailto:clientsupport@adcommission.gov.au">clientsupport@adcommission.gov.au</a></p> <p><b>Please note:</b></p> <ol style="list-style-type: none"> <li>1. Any requests for the confidential information that do not include sufficient evidence as outlined above will be rejected.</li> <li>2. Only as much of the confidential information as is necessary to enter the goods will be provided.</li> </ol> <p>The ABF will conduct monitoring of imports subject to anti-dumping measures consistent with its published policy.</p>
<p>9. Are there any exporters exempt from anti-dumping measures?</p>	<p>All exporters and suppliers of aluminium zinc coated steel from China and Korea are subject to IDD, except Dongkuk Steel Mill from Korea.</p> <p>All exporters and suppliers of aluminium zinc coated steel from China are subject to ICD except Angang Steel, Jiangyin Zong Cheng Steel, Union Steel China and Yieh Phui Technomaterial from China.</p> <p>The 'all other exporters' rate of IDD and ICD will apply to exported goods unless an importer has evidence that the goods are being supplied either directly by a named exporter or through a linked supplier.</p>
<p>10. How long are the measures in place for?</p>	<p>The measures have been imposed for five years, unless revoked earlier.</p> <p>In the case of aluminium zinc coated steel from China and Korea the measures are in place until 5 August 2018.</p>

<p>11. What tariff classifications and statistical codes are covered by the anti-dumping measures?</p>	<p>Goods subject to measures should be classified using the tariff sub-headings and associated statistical codes below:</p> <table border="1" data-bbox="712 236 1370 338"> <thead> <tr> <th>Tariff subheading</th> <th>Statistical code</th> </tr> </thead> <tbody> <tr> <td>7210.61.00</td> <td>60, 61 &amp; 62</td> </tr> </tbody> </table> <p>Where importers are unclear on the correct tariff classification of their goods, it is recommended they contact the DIBP on 131 881 for further advice.</p>	Tariff subheading	Statistical code	7210.61.00	60, 61 & 62				
Tariff subheading	Statistical code								
7210.61.00	60, 61 & 62								
<p>12. What are the duty assessment importation and application period dates?</p>	<p>An importer of goods on which an IDD has been paid, may lodge an application with the Commissioner requesting that the Parliamentary Secretary make an assessment of the final liability of those goods to duty.</p> <p>This usually occurs when an importer considers that the IDD paid in respect of goods exceed the total amount payable (i.e. importers consider they are entitled to a refund of duties). In relation to IDD, an importer may consider that the dumping margin for the goods is now less than it was during the investigation period, or that its exporter is no longer dumping, and as a result it has paid more duty than it should have paid.</p> <p>There are a series of time frames fixed by legislation that govern the duty assessment system (referred to as importation periods). The duty assessment importation periods and application dates for aluminium zinc coated steel from China and Korea are as follows:</p> <table border="1" data-bbox="577 890 1541 1029"> <thead> <tr> <th>Importation Period</th> <th>Application Period</th> </tr> </thead> <tbody> <tr> <td>5 February 2017 – 4 August 2017</td> <td>5 August 2017 – 4 February 2018</td> </tr> <tr> <td>5 August 2017 – 4 February 2018</td> <td>5 February 2018 – 4 August 2018</td> </tr> <tr> <td>5 February 2018 – 4 August 2018</td> <td>5 August 2018 – 4 February 2019</td> </tr> </tbody> </table> <p>More information about duty assessments is available on the <a href="#">Anti-Dumping Commission website</a>.</p>	Importation Period	Application Period	5 February 2017 – 4 August 2017	5 August 2017 – 4 February 2018	5 August 2017 – 4 February 2018	5 February 2018 – 4 August 2018	5 February 2018 – 4 August 2018	5 August 2018 – 4 February 2019
