<p>3. How much Interim Dumping Duties (IDD) and Interim Countervailing Duties (ICD) will an importer have to pay?</p>	<p><b><u>IDD - all exporters (except Dongkuk Steel Mill, Ta Fong Steel and Sheng Yu Steel)</u></b></p> <p>IDD is in the form of a fixed and variable measure. The total IDD liability is calculated as follows:</p> <ul style="list-style-type: none"> <li>fixed component of IDD: dumping export price (DXP) or ascertained export price (AEP), whichever is the greatest, multiplied by the applicable IDD ad valorem duty rate; plus</li> <li>variable component of IDD: the amount, if any, by which the DXP is lower than the AEP.</li> </ul> <p><b><u>ICD – all exporters from China (except Angang Steel, ANSC-TKS Galvanizing, Yieh Phui Technomaterial and Jiangyin Zongcheng)</u></b></p> <ul style="list-style-type: none"> <li>The ICD liability is calculated by multiplying the DXP by the ICD ad valorem duty rate.</li> </ul>																															

<p>4. Example of how to calculate the Interim Dumping Duties (IDD) and Interim Countervailing Duties (ICD) liability</p>	<p>The following is an <b>example</b> of how to calculate the IDD and ICD liability.</p> <ul style="list-style-type: none"> <li>• DXP = AUD \$1,000 (Free-On-Board (FOB), cash)</li> <li>• AEP = AUD \$2,000 (FOB, cash)</li> <li>• IDD ad valorem rate = 10%</li> <li>• ICD ad valorem rate = 15%</li> </ul> <p><b>IDD liability</b>  <u>Fixed component of IDD:</u>  The higher of the DXP (\$1,000) or AEP (\$2,000) multiplied by the IDD ad valorem rate (10%). <math>\\$2,000 \times 10\% = \\$200</math></p> <p><u>Variable component of IDD:</u>  The amount, if any, by which the DXP (\$1,000) is lower than the AEP (\$2,000). <math>\\$2,000 - \\$1,000 = \\$1,000</math></p> <p><u>Total IDD liability:</u> <math>\\$1,200 (\\$200 + \\$1,000)</math></p> <p><b>ICD liability</b>  DXP (\$1,000) multiplied by the countervailing duty rate (15%) = \$150</p>
<p>5. What is the dumping export price (DXP) and how do I calculate it?</p>	<p>The DXP refers to the actual export price of the exported goods. The DXP should reflect the total export (invoice) price of the goods being entered, not the unit price of the goods.</p> <p><b>The DXP should be recorded on the relevant Full Import Declaration for the goods in the same terms as the AEP for the goods. Calculating the DXP may involve adjusting the actual export invoice price of the goods to the terms specified for the AEP.</b></p> <p>For example, if the AEP terms are “FOB, cash” and the actual invoice terms of the goods are “CIF, 60 days, packed”, the following adjustments will need to be made in order to calculate the DXP at FOB, cash level.</p> <ul style="list-style-type: none"> <li>• step 1 - an adjustment for interest on credit terms will need to be made; and</li> <li>• step 2 - the overseas freight and insurance components will need to be subtracted from the export invoice price.</li> </ul> <p>Where suitable evidence cannot be proffered by the importer of the interest rate, then 1.0% per month (0.033% per day) should be applied to the actual invoice price credit terms.</p>

<p>5. What is the dumping export price (DXP) and how do I calculate it? (continued)</p>	<p>An example of adjusting for credit and incoterms is provided below:</p> <ul style="list-style-type: none"> <li>• Invoice terms = CIF, 60 days</li> <li>• Specified terms = FOB, cash</li> <li>• Export price - invoice amount = \$1,000</li> <li>• Marine insurance and ocean freight amount = \$100</li> </ul> <p><b>Step 1 - adjust for credit terms</b></p> <ol style="list-style-type: none"> <li>1. 1% per month interest rate should be applied to the invoiced price credit terms (i.e. 30 days = 1%)</li> <li>2. If the invoiced CIF, 60 days price is \$1,000, then the CIF, cash price = \$980 (\$1,000 less 2%)</li> </ol> <p><b>Step 2 - adjust for incoterms</b></p> <ol style="list-style-type: none"> <li>3. Adjust for freight and insurance to calculate DXP at FOB, cash equivalent</li> <li>4. CIF, cash price of \$980 minus freight and insurance amount of \$100 = \$880</li> <li>5. The DXP price = \$880 FOB, cash</li> </ol> <p>For further instructions/examples on how to calculate the DXP, please refer to the <a href="#">Anti-Dumping Commission website</a>.</p>
<p>6. What information is needed to complete an import declaration for goods subject to measures?</p>	<p>The information required by an importer or Customs broker to complete an import declaration for goods subject to IDD/DSA is:</p> <ul style="list-style-type: none"> <li>• DXP;</li> <li>• Dumping Specification Number (DSN) or exemption type (where appropriate);</li> <li>• Country (this is usually country of origin or export country);</li> <li>• Tariff classification and statistical code;</li> <li>• Exporter / supplier; and</li> <li>• Quantity.</li> </ul> <p>Please see below to determine which DSN applies to the exporter of your goods.</p> <p>Further advice on how to complete an import declaration for goods subject to anti-dumping measures is available on the <a href="#">Anti-Dumping Commission website</a></p>

<p>7. Will dumping securities collected on my imports be converted to measures?</p>	<p>Securities taken in will be either cancelled or converted to IDD or ICD.</p> <p>The ABF will contact each affected importer/broker and provide relevant cancellation and/or conversion instructions for each consignment subject to security undertakings.</p>
<p>8. How do I lodge an entry for goods subject to dumping and/or countervailing security?</p>	<p>Goods subject to DSA and/or CSA, must be entered using the DSN shown below.</p> <p>Importers/brokers will need to complete and submit a <a href="#">dumping security undertaking</a> form when lodging an entry for goods subject to these measures.</p> <p>Importers and Customs brokers should contact the National Temporary Imports and Securities section of the Department of Immigration and Border Protection at <a href="mailto:ntis@border.gov.au">ntis@border.gov.au</a> to lodge the undertaking form and for further information relating to the operation of securities.</p>

**Please Note:**

1. The actual duty liability may be higher than the effective rate of duty published due to the variable component of IDD that may be payable.
2. IDD, ICD and AEP are considered confidential. Please see below on how importers can request the confidential rates.

<p>10. How do I find out the confidential rate and ascertained export price for my exporter?</p>	<p>The IDD ad valorem rate and the AEP for each DSN are considered confidential and will not be published.</p> <p>Importers of these goods may be provided with the confidential IDD ad valorem rate and the AEP, however the onus is on the importer to substantiate their commercial relationship with an exporter/supplier of their goods by providing evidence of:</p> <ul style="list-style-type: none"> <li>• A previous trading history with a nominated exporter/supplier of the goods. Evidence of a trading history would take the form of at least commercial invoices, packing list and bills of lading from previous shipments; or</li> <li>• In the absence of a trading history, an offer or a quotation from an exporter/supplier of goods subject to dumping/countervailing measures. The offer or quotation must be on the exporter/supplier's company letterhead.</li> </ul> <p>Requests and evidence should be sent to <a href="mailto:clientsupport@adcommission.gov.au">clientsupport@adcommission.gov.au</a></p> <p><b>Please note:</b></p> <ol style="list-style-type: none"> <li>1. Any requests for the confidential information that do not include sufficient evidence as outlined above will be rejected.</li> <li>2. Only as much of the confidential information as is necessary to enter the goods will be provided.</li> </ol> <p>The ABF will conduct monitoring of imports subject to anti-dumping measures consistent with its published policy.</p>
<p>11. Are there any exporters exempt from anti-dumping measures?</p>	<p>All exporters and suppliers of zinc coated (galvanised) steel from China, Taiwan and Korea are subject to IDD except:</p> <ul style="list-style-type: none"> <li>• Dongkuk Steel Mill Co Ltd (Dongkuk) from Korea;</li> <li>• Sheng Yu Steel Co Ltd from Taiwan and;</li> <li>• Ta Fong Steel Co Ltd from Taiwan.</li> </ul> <p>All exporters and suppliers of zinc coated (galvanised) steel from China are subject to ICD except:</p> <ul style="list-style-type: none"> <li>• Angang Steel Company Ltd;</li> <li>• ANSC-TKS Galvanizing Co Ltd;</li> <li>• Yieh Phui Technomaterial Co. 11. Are there any exporters exempt from anti-dumping measures? 12. How long are the measures in place for?	<p>The measures have been imposed for five years, unless revoked earlier.</p> <p>In the case of zinc coated (galvanised) steel from China, Taiwan and Korea, the measures are in place until 5 August 2018.</p>										
13. What tariff classifications and statistical codes are covered by the anti-dumping measures?	<p>Goods subject to measures should be classified using the tariff sub-headings and associated statistical codes below:</p> <table border="1" data-bbox="712 560 1370 759"> <thead> <tr> <th>Tariff subheading</th> <th>Statistical code</th> </tr> </thead> <tbody> <tr> <td>7210.49.00</td> <td>55, 56, 57 and 58</td> </tr> <tr> <td>7212.30.00</td> <td>61</td> </tr> <tr> <td>7225.92.00*</td> <td>38*</td> </tr> <tr> <td>7226.99.00*</td> <td>71*</td> </tr> </tbody> </table> <p><b>* Please Note:</b> These tariff subheadings <u>only</u> apply to the following exporters/suppliers:</p> <ul style="list-style-type: none"> <li>All exporters from India, Malaysia and Vietnam</li> <li>Angang Steel Co. 14. What are the duty assessment importation and application period dates?	<p>An importer of goods on which an IDD has been paid, may lodge an application with the Commissioner requesting that the Parliamentary Secretary make an assessment of the final liability of those goods to duty.</p> <p>This usually occurs when an importer considers that the IDD paid in respect of goods exceed the total amount payable (i.e. importers consider they are entitled to a refund of duties). In relation to IDD, an importer may consider that the dumping margin for the goods is now less than it was during the investigation period, or that its exporter is no longer dumping, and as a result it has paid more duty than it should have paid.</p>										

There are a series of time frames fixed by legislation that govern the duty assessment system (referred to as importation periods). The duty assessment importation periods and application dates for zinc coated (galvanised) steel from China, Taiwan and Korea are as follows:

<b>Importation Period</b>	<b>Application Period</b>
5 August 2016 – 4 February 2017	5 February 2017 – 4 August 2017
5 February 2017 – 4 August 2017	5 August 2017 – 4 February 2018
5 August 2017 – 4 February 2018	5 February 2018 – 4 August 2018
