Question	Response
<p>1. What countries do measures apply to?</p>	<p>On 4 May 2016, with an effective date of 25 May 2016, anti-dumping measures in the form of interim dumping duties (IDD) were varied following a continuation of measures on ammonium nitrate exported either directly from the Russian Federation (Russia) or via Estonia.</p> <p>For more information please refer to the Final Report <a href="#">REP 312</a> and Anti-dumping Notice <a href="#">2016/34</a>.</p> <p>On 24 October 2018, with an effective date of 25 October 2018, provisional anti-dumping measures in the form of dumping securities (DSA) were imposed on ammonium nitrate exported from Sweden, the Kingdom of Thailand (Thailand) and the People’s Republic of China (China).</p> <p>For more information please refer to the Anti-dumping Notice <a href="#">2018/166</a>.</p>
<p>2. What types of ammonium nitrate are subject to anti-dumping measures?</p>	<p><b>The ‘description of goods’ subject to measures are:</b></p> <ul style="list-style-type: none"> <li>• low density and high density ammonium nitrate;</li> <li>• prilled, granular or in other sold form;</li> <li>• with or without additives or coatings;</li> <li>• in packages exceeding 10 kg.</li> </ul> <p><b>Types</b></p> <ul style="list-style-type: none"> <li>• Low density ammonium nitrate is generally of solid prilled form and is typically used in the manufacture of explosives</li> <li>• high density solid ammonium nitrate is generally used in the agricultural sector as a fertiliser.</li> </ul> <p>For more information about the description of the goods subject to measures, please refer to the Final Report <a href="#">REP 312</a>.</p> <p><b>Please Note:</b></p> <ol style="list-style-type: none"> <li>1. When importing goods into the country importers are required to self-assess whether the imported goods meet the goods description outlined above and whether anti-dumping measures apply.</li> <li>2. The Anti-Dumping Commission is not in a position to provide advice on whether certain goods meet the description above.</li> <li>3. The use of exemption types is subject to monitoring by the Anti-Dumping Commission (the Commission) and the Australian Border Force (ABF).</li> </ol>
<p>3. How much Interim Dumping Duties (IDD) will an importer have to pay?</p>	<p><b><u>IDD – all exporters from Russia and Estonia</u></b></p> <p>IDD is in the form of a floor price. The total IDD liability is the amount by which the dumping export price (DXP) is lower than the floor price.</p>

<p>3. How much Interim Dumping Securities (DSA) will an importer have to pay? (continued)</p>	<p><b><u>DSA – all exporters from Sweden, Thailand and China</u></b></p> <p>DSA is in the form of a fixed and variable measure. The total DSA liability is calculated as follows:</p> <ul style="list-style-type: none"> <li>• fixed component of DSA: dumping export price (DXP) or ascertained export price (AEP), whichever is the greatest, multiplied by the applicable DSA ad valorem duty rate; <b>plus</b></li> <li>• variable component of DSA: the amount, if any, by which the DXP is lower than the AEP.</li> </ul>
<p>4. Example of how to calculate the Interim Dumping Duties (IDD)/ Dumping Securities (DSA) liability</p>	<p><b><u>Floor Price Measure</u></b></p> <p>The following is an <b>example</b> of how to calculate the IDD liability.</p> <ul style="list-style-type: none"> <li>• DXP = AUD \$1,000 (Free-On-Board (FOB), cash)</li> <li>• Floor Price = AUD \$2,000 (FOB, cash)</li> </ul> <p><b>IDD liability</b></p> <p>The amount, if any, by which the DXP (\$1,000) is lower than the Floor Price (\$2,000)</p> $\$2,000 - \$1,000 = \$1,000$ <p><b>Total IDD liability: \$1000</b></p> <p><b><u>Fixed and variable measures</u></b></p> <p>The following is an <b>example</b> of how to calculate the DSA liability.</p> <ul style="list-style-type: none"> <li>• DXP = AUD \$1,000 (Free-On-Board (FOB), cash)</li> <li>• AEP = AUD \$2,000 (FOB, cash)</li> <li>• DSA ad valorem rate = 10%</li> </ul> <p><b>DSA liability</b></p> <p><u>Fixed component of DSA:</u></p> <p>The higher of the DXP (\$1,000) or AEP (\$2,000) multiplied by the DSA ad valorem rate (10%)</p> $\$2,000 \times 10\% = \$200$ <p><u>Variable component of DSA:</u></p> <p>the amount, if any, by which the DXP (\$1,000) is lower than the AEP (\$2,000)</p> $\$2,000 - \$1,000 = \$1,000$ <p><b>Total DSA liability: \$1,200 (\$200 + \$1,000)</b></p>

5. What is the dumping export price (DXP) and how do I calculate it?

The DXP refers to the actual export price of the exported goods. The DXP should reflect the total export (invoice) price of the goods being entered, not the unit price of the goods.

**The DXP should be recorded on the relevant Full Import Declaration for the goods in the same terms as the export terms for the goods. Calculating the DXP may involve adjusting the actual export invoice price of the goods to the terms specified.**

For example, if the export terms are “FOB, cash” and the actual invoice terms of the goods are “CIF, 60 days, packed”, the following adjustments will need to be made in order to calculate the DXP at FOB, cash level.

- step 1 - an adjustment for interest on credit terms will need to be made; and
- step 2 - the overseas freight and insurance components will need to be subtracted from the export invoice price.

Where suitable evidence cannot be proffered by the importer of the interest rate, then 1.0% per month (0.033% per day) should be applied to the actual invoice price credit terms.

An example of adjusting for credit and incoterms is provided below:

- Invoice terms = CIF, 60 days
- Specified terms = FOB, cash
- Export price - invoice amount = \$1,000
- Marine insurance and ocean freight amount = \$100

**Step 1 - adjust for credit terms**

1. 1% per month interest rate should be applied to the invoiced price credit terms (i.e. 30 days = 1%)
2. If the invoiced CIF, 60 days price is \$1,000, then the CIF, cash price = \$980 (\$1,000 less 2%)

**Step 2 - adjust for incoterms**

3. Adjust for freight and insurance to calculate DXP at FOB, cash equivalent
4. CIF, cash price of \$980 minus freight and insurance amount of \$100 = \$880
5. The DXP price = \$880 FOB, cash

For further instructions/examples on how to calculate the DXP, please refer to the [Anti-Dumping Commission website](#).

<p>6. What information is needed to complete an import declaration for goods subject to measures?</p>	<p>The information required by an importer or Customs broker to complete an import declaration for goods subject to IDD is:</p> <ul style="list-style-type: none"> <li>• DXP;</li> <li>• Dumping Specification Number (DSN) or exemption type (where appropriate);</li> <li>• Country (this is usually country of origin or export country);</li> <li>• Tariff classification and statistical code;</li> <li>• Exporter / supplier; and</li> <li>• Quantity.</li> </ul> <p>Please see below to determine which DSN applies to the exporter of your goods.</p> <p>Further advice on how to complete an import declaration for goods subject to anti-dumping measures is available on the <a href="#">Anti-Dumping Commission website</a></p>																																																												
<p>7. Will dumping securities collected on my imports be converted to measures?</p>	<p>Securities taken in will be either cancelled or converted to IDD.</p> <p>The ABF will contact each affected importer/broker and provide relevant cancellation and/or conversion instructions for each consignment subject to security undertakings.</p>																																																												
<p>8. How do I lodge an entry for goods subject to dumping security?</p>	<p>Goods subject to DSA, must be entered using the DSN shown below. Importers/brokers will need to complete and submit a <a href="#">dumping security undertaking</a> form when lodging an entry for goods subject to these measures.</p> <p>Importers and Customs brokers should contact the National Temporary Imports and Securities section of the Australian Border Force at <a href="mailto:ntis@abf.gov.au">ntis@abf.gov.au</a> to lodge the undertaking form and for further information relating to the operation of securities.</p>																																																												
<p>9. <p>10. How do I find out the confidential rate and ascertained export price for my exporter?</p>	<p>The floor price and ascertained export price for each DSN is considered confidential and will not be published.</p> <p>Importers of these goods may be provided with the confidential rates, however the onus is on the importer to substantiate their commercial relationship with an exporter/supplier of ammonium nitrate by providing evidence of:</p> <ul style="list-style-type: none"> <li>• A previous trading history with a nominated exporter/supplier of the goods. Evidence of a trading history would take the form of at least commercial invoices, packing list and bills of lading from previous shipments. Additional documentation may be requested by the Commission; or</li> <li>• In the absence of a trading history, an offer or a quotation from an exporter/supplier of goods subject to dumping/countervailing measures. The offer or quotation must be on the exporter/supplier's company letterhead – emails will not generally be accepted.</li> </ul> <p>Requests and evidence should be sent to <a href="mailto:clientsupport@adcommission.gov.au">clientsupport@adcommission.gov.au</a></p>

14. What are the duty assessment importation and application period dates?

An importer of goods on which an IDD has been paid, may lodge an application with the Commissioner requesting that the Parliamentary Secretary make an assessment of the final liability of those goods to duty.

This usually occurs when an importer considers that the IDD paid in respect of goods exceed the total amount payable (i.e. importers consider they are entitled to a refund of duties). In relation to IDD, an importer may consider that the dumping margin for the goods is now less than it was during the investigation period, or that its exporter is no longer dumping, and as a result it has paid more duty than it should have paid.

There are a series of time frames fixed by legislation that govern the duty assessment system (referred to as importation periods). The duty assessment importation periods and application dates for ammonium nitrate from Russia and Estonia are as follows:

<b>Importation Period</b>	<b>Application Period</b>
24 November 2017 – 23 May 2018	24 May 2018 – 23 November 2018
24 May 2018 – 23 November 2018	24 November 2018 – 23 May 2019
