# Dumping Commodity Register

## Clear Float Glass

Exported from China, Indonesia and Thailand

Document release date	Brief description of change(s)
3 August 2015	Redesign of Dumping Commodity Register
18 October 2016	Continuation of Measures
7 March 2017	Amendment to Manufacturer/Supplier list
27 April 2018	Adjustment to duty assessment importation periods

**Note:**

DCRs notify the outcomes of finalised investigations and should be read in conjunction with any relevant current investigations, such as reviews and inquiries. Please refer to the [Cases](#) page on the website to locate any current information for this commodity.

10. What tariff classifications and statistical codes are covered by the anti-dumping measures? .....	7
11. What are the duty assessment importation and application period dates? .....	8

Question	Response																										
1. What countries do measures apply to?	<p>On 8 September 2016, with an effective date of 18 October 2016, anti-dumping measures in the form of interim dumping duties (IDD) were varied for clear float glass exported from the People’s Republic of China (China), Kingdom of Thailand (Thailand) and the Republic of Indonesia (Indonesia), except exports by Xinyi Ultrathin Glass (Donguan) Co. Ltd, following a continuation inquiry.</p> <p>For more information please refer to the Final Report <a href="#">REP 335</a> and Anti-Dumping Notice <a href="#">2016/85</a>.</p>																										
2. What types of clear float glass are subject to anti-dumping measures?	<p><b>The ‘description of goods’ subject to measures for Clear Float Glass are:</b></p> <ul style="list-style-type: none"> <li>• in nominal thicknesses of 3 to 12 mm;</li> <li>• transparent;</li> <li>• flat; and</li> <li>• rectangular or square in shape.</li> </ul> <p><b>Sizes</b></p> <p>The Australian Industry Standard nominal thicknesses and thickness tolerances apply and are listed in the table below.</p> <table border="1" data-bbox="714 743 1393 1080"> <thead> <tr> <th rowspan="2">Nominal thicknesses (mm)</th> <th colspan="2">Acceptable Tolerance (mm)</th> </tr> <tr> <th>Minimum</th> <th>Maximum</th> </tr> </thead> <tbody> <tr> <td>3</td> <td>2.80</td> <td>3.50</td> </tr> <tr> <td>4</td> <td>3.51</td> <td>4.50</td> </tr> <tr> <td>5</td> <td>4.51</td> <td>5.50</td> </tr> <tr> <td>6</td> <td>5.51</td> <td>7.00</td> </tr> <tr> <td>8</td> <td>7.01</td> <td>9.00</td> </tr> <tr> <td>10</td> <td>9.01</td> <td>11.00</td> </tr> <tr> <td>12</td> <td>11.01</td> <td>12.30</td> </tr> </tbody> </table> <p><b>The following descriptions are <i>excluded</i> from measures, exemption type “GOODS” applies:</b></p> <ul style="list-style-type: none"> <li>• coated, coloured, tinted or opaque;</li> <li>• absorbent, reflective or non-reflective layer;</li> <li>• wired;</li> <li>• bent, edge-worked, engraved, drilled, enamelled or otherwise worked;</li> <li>• framed or fitted with other materials;</li> <li>• toughened (tempered) or laminated;</li> <li>• acid etched; or</li> <li>• low iron.</li> </ul>	Nominal thicknesses (mm)	Acceptable Tolerance (mm)		Minimum	Maximum	3	2.80	3.50	4	3.51	4.50	5	4.51	5.50	6	5.51	7.00	8	7.01	9.00	10	9.01	11.00	12	11.01	12.30
Nominal thicknesses (mm)	Acceptable Tolerance (mm)																										
	Minimum	Maximum																									
3	2.80	3.50																									
4	3.51	4.50																									
5	4.51	5.50																									
6	5.51	7.00																									
8	7.01	9.00																									
10	9.01	11.00																									
12	11.01	12.30																									

<p>2. What types of clear float glass are subject to anti-dumping measures? (continued)</p>	<p>For more information about the description of the goods subject to measures, please refer to the Final Report <a href="#">REP 335</a>.</p> <p><b>Please Note:</b></p> <ol style="list-style-type: none"> <li>1. When importing goods into the country importers are required to self-assess whether the imported goods meet the goods description outlined above and whether anti-dumping measures apply.</li> <li>2. The Anti-Dumping Commission is not in a position to provide advice on whether certain goods meet the description above.</li> <li>3. The use of exemption types is subject to monitoring by the Anti-Dumping Commission (the Commission) and the Australian Border Force (ABF).</li> </ol>
<p>3. How much IDD will an importer have to pay?</p>	<p><b>IDD – all exporters (except Xinyi Ultrathin Glass (Donguan) Co. Ltd)</b></p> <p>IDD is in the form of an ad valorem measure. The total IDD liability is calculated by multiplying the dumping export price (DXP) by the applicable IDD ad valorem duty rate.</p>
<p>4. Example of how to calculate the IDD liability</p>	<p><b>Ad Valorem measures</b></p> <p>The following is an <b>example</b> of how to calculate the IDD liability.</p> <ul style="list-style-type: none"> <li>• DXP = AUD \$1,000 (Free-On-Board (FOB), cash)</li> <li>• IDD ad valorem rate = 10%</li> </ul> <p><b>Total IDD liability</b></p> <p>The DXP (\$1,000) multiplied by the IDD ad valorem rate (10%) = \$100</p>
<p>5. What is the dumping export price (DXP) and how do I calculate it?</p>	<p>The DXP refers to the actual export price of the exported goods. The DXP should reflect the total export (invoice) price of the goods being entered, not the unit price of the goods.</p> <p><b>The DXP should be recorded on the relevant Full Import Declaration for the goods in the same terms as the export terms for the goods. Calculating the DXP may involve adjusting the actual export invoice price of the goods to the terms specified.</b></p> <p>For example, if the export terms are “FOB, cash” and the actual invoice terms of the goods are “CIF, 60 days, packed”, the following adjustments will need to be made in order to calculate the DXP at FOB, cash level.</p> <ul style="list-style-type: none"> <li>• step 1 - an adjustment for interest on credit terms will need to be made; and</li> <li>• step 2 - the overseas freight and insurance components will need to be subtracted from the export invoice price.</li> </ul> <p>Where suitable evidence cannot be proffered by the importer of the interest rate, then 1.0% per month (0.033% per day) should be applied to the actual invoice price credit terms.</p>

<p>5. What is the dumping export price (DXP) and how do I calculate it? (continued)</p>	<p>An example of adjusting for credit and incoterms is provided below:</p> <ul style="list-style-type: none"><li>• Invoice terms = CIF, 60 days</li><li>• Specified terms = FOB, cash</li><li>• Export price - invoice amount = \$1,000</li><li>• Marine insurance and ocean freight amount = \$100</li></ul> <p><b>Step 1 - adjust for credit terms</b></p> <ol style="list-style-type: none"><li>1. 1% per month interest rate should be applied to the invoiced price credit terms (i.e. 30 days = 1%)</li><li>2. If the invoiced CIF, 60 days price is \$1,000, then the CIF, cash price = \$980 (\$1,000 less 2%)</li></ol> <p><b>Step 2 - adjust for incoterms</b></p> <ol style="list-style-type: none"><li>3. Adjust for freight and insurance to calculate DXP at FOB, cash equivalent</li><li>4. CIF, cash price of \$980 minus freight and insurance amount of \$100 = \$880</li><li>5. The DXP price = \$880 FOB, cash</li></ol> <p>For further instructions/examples on how to calculate the DXP, please refer to the <a href="#">Anti-Dumping Commission website</a>.</p>
<p>6. What information is needed to complete an import declaration for goods subject to measures?</p>	<p>The information required by an importer or Customs broker to complete an import declaration for goods subject to IDD is:</p> <ul style="list-style-type: none"><li>• DXP;</li><li>• Dumping Specification Number (DSN) or exemption type (where appropriate);</li><li>• Country (this is usually country of origin or export country);</li><li>• Tariff classification and statistical code;</li><li>• Exporter / supplier; and</li><li>• Quantity.</li></ul> <p>Please see below to determine which DSN applies to the exporter of your goods.</p> <p>Advice on how to complete an import declaration subject to anti-dumping measures is available at <a href="#">Anti-Dumping Commission</a>.</p>

7. What DSN do I use on the import declaration for my goods and what are the rates for my exporter?

These DSNs apply to goods from Indonesia and entered for home consumption on or after 18 October 2016.

11. What are the duty assessment importation and application period dates?

An importer of goods on which an IDD has been paid, may lodge an application with the Commissioner requesting that the Parliamentary Secretary make an assessment of the final liability of those goods to duty.

This usually occurs when an importer considers that the IDD paid in respect of goods exceed the total amount payable (i.e. importers consider they are entitled to a refund of duties). In relation to IDD, an importer may consider that the dumping margin for the goods is now less than it was during the investigation period, or that its exporter is no longer dumping, and as a result it has paid more duty than it should have paid.

There are a series of time frames fixed by legislation that govern the duty assessment system (referred to as importation periods). The duty assessment importation periods and application dates for clear float glass from Indonesia, Thailand and China are:

<b>Importation Period</b>	<b>Application Period</b>
17 October 2017 – 16 April 2018	17 April 2018 – 16 October 2018
17 April 2018 – 16 October 2018	17 October 2018 – 16 April 2019
17 October 2018 – 16 April 2019	17 April 2019 – 16 October 2019
17 April 2019 – 16 October 2019	17 October 2019 – 16 April 2020
17 October 2019 – 16 April 2020	17 April 2020 – 16 October 2020
17 April 2020 – 16 October 2020	17 October 2020 – 16 April 2021
17 October 2020 – 16 April 2021	17 April 2021 – 16 October 2021
17 April 2021 – 16 October 2021	17 October 2021 – 16 April 2022

More information about duty assessments is available on the [Anti-Dumping Commission website](#).
