Dumping Commodity Register

Processed Dried Currants

Exported from Greece

Document release date	Brief description of change(s)
21 April 2016	Redesign of DCR

Note:

DCRs notify the outcomes of finalised investigations and should be read in conjunction with any relevant current investigations, such as reviews and inquiries. Please refer to the [Cases page](#) on the website to locate any current information for this commodity.

Contents

1. What countries do measures apply to?	3

11. What tariff classifications and statistical codes are covered by the anti-dumping measures?	6
12. What are the duty assessment importation and application period dates?	7

Question	Response
1. What countries do measures apply to?	<p>On 13 January 2014, with an effective date of 15 January 2014, anti-dumping measures in the form of interim dumping duties (IDD) were varied on processed dried currants (currants) exported from Greece following a continuation inquiry.</p> <p>For more information please refer to the Final Report REP 220 and Anti-Dumping Notice 2014/03.</p>
2. What types of currents are subject to anti-dumping measures?	<p>The ‘description of goods’ subject to measures is:</p> <ul style="list-style-type: none"> • Processed dried currants of the grape variety <i>Vitis Vinifera L. Black Corinth</i>. <p>The following descriptions are <i>excluded</i> from measures, exemption type “GOODS” applies:</p> <ul style="list-style-type: none"> • buck currants; • red currants; • berries (e.g. red berries); • sultanas; • muscat raisins; • unprocessed currants; or • blended dried fruit mixtures. <p>For more information about the description of the goods subject to measures, please refer to the Final Report REP 220.</p> <p><u>Please Note:</u></p> <ol style="list-style-type: none"> 1. When importing goods into the country importers are required to self-assess whether the imported goods meet the goods description outlined above and whether anti-dumping measures apply. 2. The Anti-Dumping Commission is not in a position to provide advice on whether certain goods meet the description above. 3. The use of exemption types is subject to monitoring by the Anti-Dumping Commission (the Commission) and the Department of Immigration and Border Protection (DIBP).
3. How much Interim Dumping Duties (IDD) will an importer have to pay?	<p><u>IDD – all exporters</u></p> <p>IDD is in the form of a floor price. The total IDD liability is the amount by which the dumping export price (DXP) is lower than the floor price.</p>

<p>4. Example of how to calculate the Interim Dumping Duties (IDD) liability</p>	<p><u>Floor Price measures</u></p> <p>The following is an example of how to calculate the IDD liability.</p> <ul style="list-style-type: none"> • DXP = AUD \$1,000 (Free-On-Board (FOB), cash) • Floor Price = AUD \$2,000 (FOB, cash) <p>IDD liability: The amount, if any, by which the DXP (\$1,000) is lower than the floor price (\$2,000) \$2,000 - \$1,000 = \$1,000</p> <p>Total IDD liability: \$1,000</p>
<p>5. What is the dumping export price (DXP) and how do I calculate it?</p>	<p>The DXP refers to the actual export price of the exported goods. The DXP should reflect the total export (invoice) price of the goods being entered, not the unit price of the goods.</p> <p>The DXP should be recorded on the relevant Full Import Declaration for the goods in the same terms as the export terms for the goods. Calculating the DXP may involve adjusting the actual export invoice price of the goods to the terms specified.</p> <p>For example, if the export terms are “FOB, cash” and the actual invoice terms of the goods are “CIF, 60 days, packed”, the following adjustments will need to be made in order to calculate the DXP at FOB, cash level.</p> <ul style="list-style-type: none"> • step 1 - an adjustment for interest on credit terms will need to be made; and • step 2 - the overseas freight and insurance components will need to be subtracted from the export invoice price. <p>Where suitable evidence cannot be proffered by the importer of the interest rate, then 1.0% per month (0.033% per day) should be applied to the actual invoice price credit terms.</p> <p>An example of adjusting for credit and incoterms is provided below:</p> <ul style="list-style-type: none"> • Invoice terms = CIF, 60 days • Specified terms = FOB, cash • Export price - invoice amount = \$1,000 • Marine insurance and ocean freight amount = \$100

<p>5. What is the dumping export price (DXP) and how do I calculate it? (continued)</p>	<p>Step 1 - adjust for credit terms</p> <ol style="list-style-type: none"> 1% per month interest rate should be applied to the invoiced price credit terms (i.e. 30 days = 1%) If the invoiced CIF, 60 days price is \$1,000, then the CIF, cash price = \$980 (\$1,000 less 2%) <p>Step 2 - adjust for incoterms</p> <ol style="list-style-type: none"> Adjust for freight and insurance to calculate DXP at FOB, cash equivalent CIF, cash price of \$980 minus freight and insurance amount of \$100 = \$880 The DXP price = \$880 FOB, cash <p>For further instructions/examples on how to calculate the DXP, please refer to the Anti-Dumping Commission website.</p>																												
<p>6. What information is needed to complete an import declaration for goods subject to measures?</p>	<p>The information required by an importer or Customs broker to complete an import declaration for goods subject to IDD is:</p> <ul style="list-style-type: none"> DXP; Dumping Specification Number (DSN) or exemption type (where appropriate); Country (this is usually country of origin or export country); Tariff classification and statistical code; Exporter / supplier; and Quantity. <p>Please see below to determine which DSN applies to the exporter of your goods.</p> <p>Further advice on how to complete an import declaration for goods subject to anti-dumping measures is available on the Anti-Dumping Commission website</p>																												
<p>7. What are the rates for my exporter and what DSN do I use for my imported goods?</p>	<p>The following DSNs apply to currents exported from Greece and entered for home consumption on or after 15 January 2014.</p> <table border="1" data-bbox="488 1098 1865 1337"> <thead> <tr> <th>Exporter</th> <th>CCID</th> <th>Measure</th> <th>Floor Price</th> <th>Effective Rate of Duty</th> <th>Export Terms</th> <th>DSN</th> </tr> </thead> <tbody> <tr> <td colspan="7">Greece</td> </tr> <tr> <td>Agricultural Co-operative Union Aeghion</td> <td>CCR6376794H</td> <td>IDD</td> <td>Confidential</td> <td>0.0%</td> <td>FOB, cash</td> <td>20</td> </tr> <tr> <td colspan="2">All other exporters</td> <td>IDD</td> <td>Confidential</td> <td>0.0%</td> <td>FOB, cash</td> <td>21</td> </tr> </tbody> </table> <p>Please Note: The floor price is considered confidential. Please see below on how importers can request the confidential rates.</p>	Exporter	CCID	Measure	Floor Price	Effective Rate of Duty	Export Terms	DSN	Greece							Agricultural Co-operative Union Aeghion	CCR6376794H	IDD	Confidential	0.0%	FOB, cash	20	All other exporters		IDD	Confidential	0.0%	FOB, cash	21
Exporter	CCID	Measure	Floor Price	Effective Rate of Duty	Export Terms	DSN																							
Greece																													
Agricultural Co-operative Union Aeghion	CCR6376794H	IDD	Confidential	0.0%	FOB, cash	20																							
All other exporters		IDD	Confidential	0.0%	FOB, cash	21																							

<p>8. How do I find out the confidential rates for my exporter?</p>	<p>The floor price for each DSN is considered confidential and will not be published.</p> <p>Importers of these goods may be provided with the confidential rates, however the onus is on the importer to substantiate their commercial relationship with an exporter/supplier of processed dried currants by providing evidence of:</p> <ul style="list-style-type: none"> • A previous trading history with a nominated exporter/supplier of the goods. Evidence of a trading history would take the form of at least commercial invoices, packing list and bills of lading from previous shipments. Additional documentation may be requested by the Commission; or • In the absence of a trading history, an offer or a quotation from an exporter/supplier of goods subject to dumping/countervailing measures. The offer or quotation must be on the exporter/supplier's company letterhead – emails will not generally be accepted. <p>Requests and evidence should be sent to clientsupport@adcommission.gov.au</p> <p>Please note:</p> <ol style="list-style-type: none"> 1. Any requests for the confidential information that do not include sufficient evidence as outlined above will be rejected. 2. Only as much of the confidential information as is necessary to enter the goods will be provided. <p>The ABF will conduct monitoring of imports subject to anti-dumping measures consistent with its published policy.</p>				
<p>9. Are there any exporters exempt from anti-dumping measures?</p>	<p>All exporters and suppliers of currants from Greece are subject to IDD.</p> <p>The 'all other exporters' rate of IDD will apply to exported goods unless an importer has evidence that the goods are being supplied either directly by a named exporter or through a linked supplier.</p>				
<p>10. How long are the measures in place for?</p>	<p>The measures have been imposed for five years, unless revoked earlier.</p> <p>In the case of currants from Greece the measures are in place until 14 January 2019.</p>				
<p>11. What tariff classifications and statistical codes are covered by the anti-dumping measures?</p>	<p>Goods subject to measures should be classified using the tariff sub-headings and associated statistical codes below:</p> <table border="1" data-bbox="817 1246 1476 1342" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th style="text-align: center;">Tariff subheading</th> <th style="text-align: center;">Statistical code</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">0806.20.00</td> <td style="text-align: center;">29</td> </tr> </tbody> </table> <p>Where importers are unclear on the correct tariff classification of their goods, it is recommended they contact the DIBP on 131 881 for further advice.</p>	Tariff subheading	Statistical code	0806.20.00	29
Tariff subheading	Statistical code				
0806.20.00	29				

12. What are the duty assessment importation and application period dates?

An importer of goods on which an IDD has been paid, may lodge an application with the Commissioner requesting that the Parliamentary Secretary make an assessment of the final liability of those goods to duty.

This usually occurs when an importer considers that the IDD paid in respect of goods exceed the total amount payable (i.e. importers consider they are entitled to a refund of duties). In relation to IDD, an importer may consider that the dumping margin for the goods is now less than it was during the investigation period, or that its exporter is no longer dumping, and as a result it has paid more duty than it should have paid.

There are a series of time frames fixed by legislation that govern the duty assessment system (referred to as importation periods). The duty assessment importation periods and application dates for currants from Greece are as follows:

Importation Period	Application Period
14 July 2017 to 13 January 2018	14 January 2018 to 13 July 2018
14 January 2018 to 13 July 2018	14 July 2018 to 13 January 2019
14 July 2018 to 13 January 2019	14 January 2019 to 13 July 2019

More information about duty assessments is available on the [Anti-Dumping Commission website](#).
