Dumping Commodity Register

PVC Flat Electric Cables

Exported from the People's Republic of China

Document release date	Brief description of change(s)
4 January 2019	Implementation of Provisional Measures

Note:

DCRs notify the outcomes of finalised investigations and should be read in conjunction with any relevant current investigations, such as reviews and inquiries. Please refer to the [Cases page](#) on the website to locate any current information for this commodity.

Contents

1. What countries do measures apply to?	3
2. What types of PVC Cables are subject to anti-dumping measures?	3
3. How much Dumping Securities (DSA) and Countervailing Securities will an importer be liable for?	4
4. Example of how to calculate the Dumping Securities (DSA) liability	4
5. What is the dumping export price (DXP) and how do I calculate it?	4
6. What information is needed to complete an import declaration for goods subject to securities?	5
7. Will dumping securities collected on my imports be converted to measures?	5
8. How do I lodge an entry for goods subject to dumping security?	6
9. What DSN do I use for my imported goods and what are the rates for my exporter?	6
10. Are there any exporters exempt from anti-dumping securities?	6
11. How long are securities in place for?	6
12. What tariff classifications and statistical codes are covered by the anti-dumping securities?	6

Question	Response
1. What countries do measures apply to?	<p>On 4 January 2019, with an effective date of 7 January 2019, provisional anti-dumping measures in the form of dumping securities (DSA) were imposed on PVC flat electric cables (PVC Cables) exported from the People’s Republic of China (China).</p> <p>On 4 January 2019, with an effective date of 7 January 2019, provisional anti-dumping measures in the form of countervailing securities (CSA) were imposed on PVC flat electric cables (PVC Cables) exported from the People’s Republic of China (China).</p> <p>For more information please refer to the Preliminary Affirmative Determination ADN 2019/05.</p>
2. What types of PVC Cables are subject to anti-dumping measures?	<p>The ‘description of goods’ subject to securities are:</p> <p>Flat, electric cables, comprising two copper conductor cores and an ‘earth’ (copper) core with a nominal conductor cross sectional area of between, and including, 2.5 mm² and 3 mm², insulated and sheathed with polyvinyl chloride (PVC) materials, and suitable for connection to mains electricity power installations at voltages exceeding 80 volts (V) but not exceeding 1,000 V, and complying with Australian/New Zealand Standard (AS/NZS) AS/NZS 5000.2 (the Australian Standard), and whether or not fitted with connectors.</p> <p>The following descriptions are <i>excluded</i> from measures, exemption type “GOODS” applies:</p> <ul style="list-style-type: none"> • single core cables, being cables with a single active core; • aerial cables as defined by the Australian Standard; • twin active flat cables, that is, flat cables comprising two active cores but no earth core; • circular cables as defined by the Australian Standard; • cables insulated and/or sheathed with non-PVC material, including but not limited to cross-linked polyethylene (XLPE) materials, including a combination of PVC and nonPVC material; • cables comprising cores made of aluminium conductors; and • flexible cables (cords) as defined by AS/NZS 3191 and/or AS/NZS 60227. <p>For more information about the description of the goods subject to securities, please refer to PAD 469.</p> <p>Please Note:</p> <ol style="list-style-type: none"> 1. When importing goods into the country importers are required to self-assess whether the imported goods meet the goods description outlined above and whether anti-dumping measures apply. 2. The Anti-Dumping Commission is not in a position to provide advice on whether certain goods meet the description above. 3. The use of exemption types is subject to monitoring by the Anti-Dumping Commission (the Commission) and the Department of Immigration and Border Protection (DIBP).

<p>3. How much Dumping Securities (DSA) and Countervailing Securities will an importer be liable for?</p>	<p><u>DSA – all exporters</u> DSA is in the form of an ad valorem measure and is calculated by multiplying the DXP by the DSA ad valorem duty rate.</p> <p><u>CSA – all exporters</u> The CSA liability is calculated by multiplying the DXP by the CSA ad valorem duty rate.</p>
<p>4. Example of how to calculate the Dumping Securities (DSA) liability</p>	<p><u>Ad Valorem measures</u> The following is an example of how to calculate the DSA and CSA liability.</p> <ul style="list-style-type: none"> • DXP = AUD \$1,000 (Free-On-Board (FOB), cash) • IDD ad valorem rate = 10% • ICD ad valorem rate = 15% <p>DSA liability The DXP (\$1,000) multiplied by the IDD ad valorem rate (10%) = \$100</p> <p>Total CSA liability: DXP (\$1,000) multiplied by the countervailing duty rate (15%) = \$150</p>
<p>5. What is the dumping export price (DXP) and how do I calculate it?</p>	<p>The DXP refers to the actual export price of the exported goods. The DXP should reflect the total export (invoice) price of the goods being entered, not the unit price of the goods.</p> <p>The DXP should be recorded on the relevant Full Import Declaration for the goods in the same terms as the export price for the goods. Calculating the DXP may involve adjusting the actual export invoice price of the goods to the terms specified.</p> <p>For example, if the terms are “FOB, cash” and the actual invoice terms of the goods are “CIF, 60 days, packed”, the following adjustments will need to be made in order to calculate the DXP at FOB, cash level.</p> <ul style="list-style-type: none"> • step 1 - an adjustment for interest on credit terms will need to be made; and • step 2 - the overseas freight and insurance components will need to be subtracted from the export invoice price. <p>Where suitable evidence cannot be proffered by the importer of the interest rate, then 1.0% per month (0.033% per day) should be applied to the actual invoice price credit terms.</p>

<p>5. What is the dumping export price (DXP) and how do I calculate it? (continued)</p>	<p>An example of adjusting for credit and incoterms is provided below:</p> <ul style="list-style-type: none"> • Invoice terms = CIF, 60 days • Specified terms = FOB, cash • Export price - invoice amount = \$1,000 • Marine insurance and ocean freight amount = \$100 <p>Step 1 - adjust for credit terms</p> <ol style="list-style-type: none"> 1. 1% per month interest rate should be applied to the invoiced price credit terms (i.e. 30 days = 1%) 2. If the invoiced CIF, 60 days price is \$1,000, then the CIF, cash price = \$980 (\$1,000 less 2%) <p>Step 2 - adjust for incoterms</p> <ol style="list-style-type: none"> 3. Adjust for freight and insurance to calculate DXP at FOB, cash equivalent 4. CIF, cash price of \$980 minus freight and insurance amount of \$100 = \$880 5. The DXP price = \$880 FOB, cash <p>For further instructions/examples on how to calculate the DXP, please refer to the Anti-Dumping Commission website.</p>
<p>6. What information is needed to complete an import declaration for goods subject to securities?</p>	<p>The information required by an importer or Customs broker to complete an import declaration for goods subject to DSA is:</p> <ul style="list-style-type: none"> • DXP; • Dumping Specification Number (DSN) or exemption type (where appropriate); • Country (this is usually country of origin or export country); • Tariff classification and statistical code; • Exporter / supplier; and • Quantity. <p>Please see below to determine which DSN applies to the exporter of your goods.</p> <p>Further advice on how to complete an import declaration for goods subject to anti-dumping measures is available on the Anti-Dumping Commission website</p>
<p>7. Will dumping securities collected on my imports be converted to measures?</p>	<p>Securities taken in will be either cancelled or converted to IDD.</p> <p>The ABF will contact each affected importer/broker and provide relevant cancellation and/or conversion instructions for each consignment subject to security undertakings.</p>

8. How do I lodge an entry for goods subject to dumping security?	<p>Goods subject to DSA, must be entered using the DSN shown below.</p> <p>Importers/brokers will need to complete and submit a dumping security undertaking form when lodging an entry for goods subject to these measures.</p> <p>Importers and Customs brokers should contact the National Temporary Imports and Securities section of the Australian Border Force at ntis@border.gov.au to lodge the undertaking form and for further information relating to the operation of securities.</p>																																			
9. What DSN do I use for my imported goods and what are the rates for my exporter?	<p>The following DSNs apply to goods exported from China and entered for home consumption on and after 7 January 2019.</p> <table border="1" data-bbox="506 485 1917 831"> <thead> <tr> <th>Exporter</th> <th>CCID</th> <th>Description</th> <th>Measure</th> <th>Effective Rate of Duty</th> <th>Export Terms</th> <th>DSN</th> </tr> </thead> <tbody> <tr> <td colspan="7">China</td> </tr> <tr> <td>Guilin International Wire & Cable Group Co. Ltd</td> <td>CCC6963366G CCG3767636Y CCH6436736Y</td> <td>All types</td> <td>DSA & CSA</td> <td>7.2%</td> <td>FOB, cash</td> <td>11</td> </tr> <tr> <td>Nanyang Cable (Tianjin) Co. Ltd</td> <td>CFG9397796E CEM9679963L</td> <td>All types</td> <td>DSA & CSA</td> <td>36.3%</td> <td>FOB, cash</td> <td>12</td> </tr> <tr> <td>All other Exporters</td> <td></td> <td>All types</td> <td>DSA & CSA</td> <td>36.3%</td> <td>FOB, cash</td> <td>13</td> </tr> </tbody> </table> <p>Please Note: As securities are in the form of an ad valorem measure, there are no confidential instructions.</p>	Exporter	CCID	Description	Measure	Effective Rate of Duty	Export Terms	DSN	China							Guilin International Wire & Cable Group Co. 10. Are there any exporters exempt from anti-dumping securities?	<p>All exporters and suppliers of PVC Cables from China are subject to DSA.</p> <p>The 'all other exporters' rate of DSA will apply to exported goods unless an importer has evidence that the goods are being supplied either directly by a named exporter or through a linked supplier.</p>																																			
11. How long are securities in place for?	<p>Securities are in place until the conclusion of the investigation.</p>																																			
12. What tariff classifications and statistical codes are covered by the anti-dumping securities?	<p>Goods subject to securities should be classified using the tariff sub-headings and associated statistical codes below:</p> <table border="1" data-bbox="712 1219 1370 1305"> <thead> <tr> <th>Tariff subheading</th> <th>Statistical code</th> </tr> </thead> <tbody> <tr> <td>8544.49.20</td> <td>41</td> </tr> </tbody> </table> <p>Where importers are unclear on the correct tariff classification of their goods, it is recommended they contact the DIBP on 131 881 for further advice.</p>	Tariff subheading	Statistical code	8544.49.20	41
