Commission

Dumping Commodity Register

Railway Wheels

Exported from the People's Republic of China and France

Document release date	Brief description of change(s)
18 June 2018	Implementation of Provisional Measures
11 October 2018	Amendment of Provisional measures following the publication of a SEF.

Note:

DCRs notify the outcomes of finalised investigations and should be read in conjunction with any relevant current investigations, such as reviews and inquiries. Please refer to the [Cases page](#) on the website to locate any current information for this commodity.

Contents

1. What countries do measures apply to?	3
2. What types of railway wheels are subject to anti-dumping measures?	3
3. How much Dumping Securities (DSA) will an importer have to pay?	3
4. Example of how to calculate the Dumping Securities (DSA) liability	4
5. What is the dumping export price (DXP) and how do I calculate it?	4
6. What information is needed to complete an import declaration for goods subject to securities?	5
7. Will dumping securities collected on my imports be converted to measures?	5
8. How do I lodge an entry for goods subject to dumping security?	5
9. What DSN do I use for my imported goods and what are the rates for my exporter?	6
10. How do I find out the confidential rate and ascertained export price for my exporter?	6
11. Are there any exporters exempt from anti-dumping securities?	7
12. How long are the measures in place for?.....	7
13. What tariff classifications and statistical codes are covered by the anti-dumping securities?	7

Question	Response
<p>1. What countries do measures apply to?</p>	<p>On 18 June 2018, with an effective date of 19 June 2018, provisional anti-dumping measures in the form of dumping securities (DSA) were imposed on railway wheels exported from the People’s Republic of China (China) and France.</p> <p>On 11 October 2018, with an effective date of 12 October 2018, provisional anti-dumping measures in the form of dumping securities (DSA) were varied following the publication of the Statement of Essential Facts.</p> <p>For more information please refer to the PAD and Anti-dumping Notice 2018/159.</p>
<p>2. What types of railway wheels are subject to anti-dumping measures?</p>	<p>The ‘description of goods’ subject to securities are: Forged and rolled steel, high hardness, nominal 38-inch (or 966 mm to 970 mm) diameter, railway wheels, whether or not including alloys. Manufactured in accordance with relevant user defined specifications and drawings, and are used on rail carriages used to transport iron ore.</p> <p>The following descriptions are <i>excluded</i> from measures, exemption type “GOODS” applies: Axles and other components.</p> <p>For more information about the description of the goods subject to securities, please refer to PAD 466.</p> <p><u>Please Note:</u></p> <ol style="list-style-type: none"> 1. When importing goods into the country importers are required to self-assess whether the imported goods meet the goods description outlined above and whether anti-dumping measures apply. 2. The Anti-Dumping Commission is not in a position to provide advice on whether certain goods meet the description above. 3. The use of exemption types is subject to monitoring by the Anti-Dumping Commission (the Commission) and the Department of Immigration and Border Protection (DIBP).
<p>3. How much Dumping Securities (DSA) will an importer have to pay?</p>	<p><u>DSA – all exporters</u></p> <p>DSA is in the form of a fixed and variable measure. The total DSA liability is calculated as follows:</p> <ul style="list-style-type: none"> • fixed component of DSA: dumping export price (DXP) or ascertained export price (AEP), whichever is the greatest, multiplied by the applicable DSA ad valorem duty rate; plus • variable component of DSA: the amount, if any, by which the DXP is lower than the AEP.

<p>4. Example of how to calculate the Dumping Securities (DSA) liability</p>	<p><u>Fixed and variable provisional measures</u></p> <p>The following is an example of how to calculate the DSA liability.</p> <ul style="list-style-type: none"> • DXP = AUD \$1,000 (Free-On-Board (FOB), cash) • AEP = AUD \$2,000 (FOB, cash) • DSA ad valorem rate = 10%
<p>4. Example of how to calculate the Dumping Securities (DSA) liability (continued)</p>	<p><u>DSA liability</u></p> <p><u>Fixed component of DSA:</u> The higher of the DXP (\$1,000) or AEP (\$2,000) multiplied by the IDD ad valorem rate (10%) \$2,000 x 10% = \$200</p> <p><u>Variable component of DSA:</u> the amount, if any, by which the DXP (\$1,000) is lower than the AEP (\$2,000) \$2,000 - \$1,000 = \$1,000</p> <p>Total DSA liability: \$1,200 (\$200 + \$1,000)</p>
<p>5. What is the dumping export price (DXP) and how do I calculate it?</p>	<p>The DXP refers to the actual export price of the exported goods. The DXP should reflect the total export (invoice) price of the goods being entered, not the unit price of the goods.</p> <p>The DXP should be recorded on the relevant Full Import Declaration for the goods in the same terms as the AEP for the goods. Calculating the DXP may involve adjusting the actual export invoice price of the goods to the terms specified for the AEP.</p> <p>For example, if the AEP terms are “FOB, cash” and the actual invoice terms of the goods are “CIF, 60 days, packed”, the following adjustments will need to be made in order to calculate the DXP at FOB, cash level.</p> <ul style="list-style-type: none"> • step 1 - an adjustment for interest on credit terms will need to be made; and • step 2 - the overseas freight and insurance components will need to be subtracted from the export invoice price. <p>Where suitable evidence cannot be proffered by the importer of the interest rate, then 1.0% per month (0.033% per day) should be applied to the actual invoice price credit terms.</p> <p>An example of adjusting for credit and incoterms is provided below:</p> <ul style="list-style-type: none"> • Invoice terms = CIF, 60 days • Specified terms = FOB, cash • Export price - invoice amount = \$1,000 • Marine insurance and ocean freight amount = \$100

<p>5. What is the dumping export price (DXP) and how do I calculate it? (continued)</p>	<p>Step 1 - adjust for credit terms</p> <ol style="list-style-type: none"> 1. 1% per month interest rate should be applied to the invoiced price credit terms (i.e. 30 days = 1%) 2. If the invoiced CIF, 60 days price is \$1,000, then the CIF, cash price = \$980 (\$1,000 less 2%) <p>Step 2 - adjust for incoterms</p> <ol style="list-style-type: none"> 3. Adjust for freight and insurance to calculate DXP at FOB, cash equivalent 4. CIF, cash price of \$980 minus freight and insurance amount of \$100 = \$880 5. The DXP price = \$880 FOB, cash <p>For further instructions/examples on how to calculate the DXP, please refer to the Anti-Dumping Commission website.</p>
<p>6. What information is needed to complete an import declaration for goods subject to securities?</p>	<p>The information required by an importer or Customs broker to complete an import declaration for goods subject to DSA is:</p> <ul style="list-style-type: none"> • DXP; • Dumping Specification Number (DSN) or exemption type (where appropriate); • Country (this is usually country of origin or export country); • Tariff classification and statistical code; • Exporter / supplier; and • Quantity. <p>Please see below to determine which DSN applies to the exporter of your goods.</p> <p>Further advice on how to complete an import declaration for goods subject to anti-dumping measures is available on the Anti-Dumping Commission website</p>
<p>7. Will dumping securities collected on my imports be converted to measures?</p>	<p>Securities taken in will be either cancelled or converted to IDD.</p> <p>The ABF will contact each affected importer/broker and provide relevant cancellation and/or conversion instructions for each consignment subject to security undertakings.</p>
<p>8. How do I lodge an entry for goods subject to dumping security?</p>	<p>Goods subject to DSA, must be entered using the DSN shown below.</p> <p>Importers/brokers will need to complete and submit a dumping security undertaking form when lodging an entry for goods subject to these measures.</p> <p>Importers and Customs brokers should contact the National Temporary Imports and Securities section of the Australian Border Force at ntis@border.gov.au to lodge the undertaking form and for further information relating to the operation of securities.</p>

<p>9. What DSN do I use for my imported goods and what are the rates for my exporter?</p>	<p>The following DSNs apply to goods exported from China and France on and after 12 October 2018.</p> <table border="1" data-bbox="483 199 1899 638"> <thead> <tr> <th>Exporter</th> <th>CCID</th> <th>Description</th> <th>Measure</th> <th>Effective Rate of Duty</th> <th>Ascertained Export Price</th> <th>Export Terms</th> <th>DSN</th> </tr> </thead> <tbody> <tr> <td colspan="8">China</td> </tr> <tr> <td><u>Maanshan Iron & Steel Co. Ltd</u></td> <td>CCN9663969G CEJ6464464L CEY4376373E</td> <td>All types</td> <td>DSA</td> <td>19.0%</td> <td>Confidential</td> <td>FOB, 45 days</td> <td>5</td> </tr> <tr> <td colspan="2"><u>All other Exporters</u></td> <td>All types</td> <td>DSA</td> <td>19.0%</td> <td>Confidential</td> <td>FOB, 45 days</td> <td>6</td> </tr> <tr> <td colspan="8">France</td> </tr> <tr> <td><u>MG-Valdunes SAS</u></td> <td>CFN9379674N CFJ7946436A</td> <td>All types</td> <td>DSA</td> <td>37.2%</td> <td>Confidential</td> <td>FOB, 60 days</td> <td>7</td> </tr> <tr> <td colspan="2"><u>All other exporters</u></td> <td>All types</td> <td>DSA</td> <td>37.2%</td> <td>Confidential</td> <td>FOB, 60 days</td> <td>8</td> </tr> </tbody> </table> <p>Please Note:</p> <ol style="list-style-type: none"> 1. AEP is considered confidential. Please see below on how importers can request the confidential rates 2. The actual duty liability may be higher than the effective rate of duty published due to the variable component of IDD. <p>10. How do I find out the confidential rate and ascertained export price for my exporter?</p>	<p>The AEP for each DSN are considered confidential and will not be published.</p> <p>Importers of these goods may be provided with the confidential IDD ad valorem rate and the AEP, however the onus is on the importer to substantiate their commercial relationship with an exporter/supplier of their goods by providing evidence of:</p> <ul style="list-style-type: none"> • A previous trading history with a nominated exporter/supplier of the goods. Evidence of a trading history would take the form of at least commercial invoices, packing list and bills of lading from previous shipments. Additional documentation may be requested by the Commission; or • In the absence of a trading history, an offer or a quotation from an exporter/supplier of goods subject to dumping/countervailing measures. The offer or quotation must be on the exporter/supplier's company letterhead. <p>Requests and evidence should be sent to clientsupport@adcommission.gov.au</p> <p>Please note:</p> <ol style="list-style-type: none"> 1. Any requests for the confidential information that do not include sufficient evidence as outlined above will be rejected. 2. Only as much of the confidential information as is necessary to enter the goods will be provided. <p>The ABF will conduct monitoring of imports subject to anti-dumping measures consistent with its published policy.</p>																																																								

11. Are there any exporters exempt from anti-dumping securities?	<p>All exporters and suppliers of railway wheels from China and France are subject to DSA.</p> <p>The 'all other exporters' rate of DSA will apply to exported goods unless an importer has evidence that the goods are being supplied either directly by a named exporter or through a linked supplier.</p>				
12. How long are the measures in place for?	Securities are in place until the conclusion of the investigation.				
13. What tariff classifications and statistical codes are covered by the anti-dumping securities?	<p>Goods subject to securities should be classified using the tariff sub-headings and associated statistical codes below:</p> <table border="1" data-bbox="692 502 1352 601"> <thead> <tr> <th data-bbox="696 505 1050 555">Tariff subheading</th> <th data-bbox="1059 505 1348 555">Statistical code</th> </tr> </thead> <tbody> <tr> <td data-bbox="696 561 1050 598">8607.19.00</td> <td data-bbox="1059 561 1348 598">20</td> </tr> </tbody> </table> <p>Where importers are unclear on the correct tariff classification of their goods, it is recommended they contact the DIBP on 131 881 for further advice.</p>	Tariff subheading	Statistical code	8607.19.00	20
