

ANTI-DUMPING NOTICE NO. 2013/92

Power transformers

Exported from the People's Republic of China, the Republic of Indonesia, the Republic of Korea, Taiwan, Thailand and the Socialist Republic of Vietnam

Preliminary Affirmative Determination and Imposition of Securities

Customs Act 1901 – Part XVB

On 29 July 2013 the Anti-Dumping Commissioner (the Commissioner) initiated an investigation into the alleged dumping of power transformers exported to Australia from the People's Republic of China (China), the Republic of Indonesia (Indonesia), the Republic of Korea (Korea), Taiwan, Thailand and the Socialist Republic of Vietnam (Vietnam), following an application lodged by Wilson Transformer Company Pty Ltd.

A full description of the goods is available in Anti-Dumping Notice (ADN) No. 2013/64. This ADN is available on the internet at www.adcommission.gov.au.

In accordance with paragraph 269TD(4)(a) of the *Customs Act 1901* (the Act), the Commissioner gives public notice that, on 20 November 2013, a preliminary affirmative determination has been made that there appears to be sufficient grounds for the publication of a dumping duty notice in respect of the goods exported to Australia from China, Indonesia, Korea, Taiwan and Vietnam.

Goods exported to Australia from Thailand continue to be under investigation but are not subject to this preliminary affirmative determination.

In reaching this preliminary decision, the Commissioner is satisfied that dumped goods appear to have caused material injury to the Australian industry producing like goods.

The Commissioner's preliminary analysis of dumping margins is tabled below.

| Country | Exporter/Country | Dumping margin |
|----------------|--|-----------------------|
| China | ABB Chongqing Transformer Co., Ltd | Negligible |

Preliminary Affirmative Determination Report No. 219 sets out the reasons for making this preliminary determination, and has been placed on the public record, available at www.adcommission.gov.au. Alternatively, the public record may be examined at the Anti-Dumping Commission (the Commission) office by contacting the case manager on the details provided below.

At the time of making the preliminary affirmative determination, the Australian Customs and Border Protection Service further determined that securities should be required and taken under section 42 of the Act in respect of interim dumping duty that may become payable in respect of the goods from China, Indonesia, Korea, Taiwan and Vietnam, being satisfied that it is necessary to require and take securities in order to prevent material injury occurring to the Australian industry while the investigation continues.

Securities will be taken in respect of any interim dumping duty that may become payable in respect of the goods entered for home consumption on or after 27 November 2013.

The security that has been determined is an amount calculated in accordance with the ad valorem duty method.

These securities will be imposed at the rate specified in the above table of preliminary dumping margin assessments. A zero rate of securities will apply to ABB Chongqing Transformer Co., Ltd, ABB Zhongshan Transformer Co., Ltd, Chint Electric Co., Ltd and Jiangsu Huapeng Transformer Co., Ltd.

The actual security liability may be higher than the effective rate of security due to a number of factors. Affected parties should contact the Commission by phone 1300 884 159 or +61 2 6275 6066 (outside Australia) or at clientsupport@adcommission.gov.au for further information regarding the actual security liability calculation in their particular circumstance.

The Commissioner must report to the Minister for Industry (the Minister) with final recommendations in relation to this investigation on or before 30 April 2013. The Minister will then decide whether to publish a dumping duty notice and, if relevant, the level of measures to be imposed.

Enquiries about this notice may be directed to the case manager on telephone number +61 2 6275 6729, fax number +61 2 6275 6888 or Operations1@adcommission.gov.au.
